

80 Causeway View,
Nailsea, Somerset,

BS 48 2 XL

26 April 2016

Dear Sir

Re Proposed Development in Nailsea

I feel that I have been in this position in the past when some 20 years ago I wrote a similar letter to you concerning the above.

One of the main objection to any future development was the access to Nailsea Town, and surrounding areas.

There is not one point of entry into this area where 2 buses, or lorries can pass, and only cars can pass with extreme care.

Before any futher development takes place, very careful con sideration must be given to this major problem.

One has to ask why no action was taken by the local authority, or central government to remedy this situation after our first objection, it would have been much cheeper then than now.

3000 more cars, and other support transport to mess up this area.

I have enclosed a general objection sheet with this letter, and would ask you to pass a copy of it to a the departments concerned, in particular transport, and roads

Tours sincerely

Barry C Osborne
